EDUCATION

Bachelor of Technology in Computer Science & Engineering **2023 – 2027**

ABC Institute of Technology, Mumbai — CGPA: 8.4 / 10.0

TECHNICAL SKILLS

Languages: Python, SQL (PostgreSQL, MySQL), JavaScript, HTML/CSS

Libraries & Frameworks: Pandas, NumPy, Scikit-Learn, Flask, Matplotlib

Tools & Databases: Power BI, Git/GitHub, MS Excel, Docker

PROFESSIONAL EXPERIENCE

Data Analyst Intern | Delta Tech Solutions, Mumbai **June 2025 – August 2025**

- Cleaned and pre-processed raw client transaction records comprising over 100,000 rows using Python (Pandas), reducing data inconsistencies by 18%.
- Built SQL queries to extract data indicators and designed an automated performance dashboard in Power BI for executive meetings.
- Collaborated with engineering teams to optimize pipeline query runtimes by indexing primary transactional keys.

TECHNICAL PORTFOLIO PROJECTS

E-Commerce Customer Segmentation Pipeline | *Python, SQL, Scikit-Learn, Git* **March 2026**

- Developed an end-to-end user evaluation engine extracting structured customer behavior logs from a local PostgreSQL warehouse.
- Applied standard scaling and executed K-Means clustering algorithm steps to identify 4 high-value customer purchasing personas.
- Version-controlled codebase across production micro-branches using Git, deploying model outputs using clean documentation standards.

Housing Price Predictor API | *Python, Pandas, Flask, Docker* **January 2026**

- Built an EDA preprocessing pipeline identifying structural outliers and engineering multi-variable linear regression predictors.
- Wrapped the trained inference model into a clean, lightweight REST API web framework service using Flask endpoints.
- Containerized the complete execution script workspace deployment within an active Docker image framework environment.

CERTIFICATIONS

- Google Data Analytics Professional Certificate — Coursera (2025)
- SQL for Data Science Certificate — Hackerrank Verified (2024)
